## THE BREAD MAKER'S MESSAGE

At the bread maker, we hand craft bread to be enjoyed and shared with friends, with family, with everyone.

We do all this in the context of providing learning and work opportunities in the bakery or coffee house environment for adults with learning disabilities.

Our traditional methods of production are testimony to the history of bread as a staple of life. Bread made slowly, with care by our bakers and apprentices. Our relaxed coffee house is the place to meet with friends or colleagues.

The ideal location to enjoy a coffee, a sandwich, a home baked cake, some quiet time, or decide what bread you're taking home to share.

We are committed to working with our apprentices to facilitate their future by developing their skills and knowledge through an apprenticeship either in the bakery or coffee house. They have an energy for life and learning and it is our vision that through providing meaningful work and training we share that energy with others.

Share our vision. Share the energy. Share a loaf.

FRESHLY BAKED SINCE 2006
